

# The Best Investment for Your Child's Future

Choosing the right school for your child is perhaps the most important decision you shall make, as the benefits of good schooling are evident not only during the years your child spends at school but throughout his or her lifetime.

San Anton School is an independent, co-ed, mixed-ability school catering for more than 1,000 students from kindergarten through secondary school. The past years have seen tremendous growth and development in the many areas of teaching at the School. The creative ideas that helped raise San Anton School to its present level of excellence are continuously being generated to meet the demands of the ever changing world of today.
